Application No.: 10/759497

Case No.: 59495US002

## Amendments to the Claims:

The following Listing of Claims will replace all prior versions, and listings, of claims in the application:

## Listing of Claims

- 1. (currently amended) A compound comprising:
- (a) an elastomeric copolymer having interpolymerized monomeric units derived from vinylidenc fluoride monomer, at least one cure site moiety, and substantially no perfluorinated vinyl ether monomers;
- (b) a peroxide curable component; and
- (c) at least one mineral filler, such that upon vulcanization the resulting compound has a retraction at lower temperature (TR-10) of -20°C or less; and (d) a peroxide.
- 2. (original) The compound according to claim 1, wherein said copolymer includes terpolymers or quadpolymers.
- 3. (previously presented) The compound according to claim 1, wherein said copolymer further comprises, tetrafluoroethylene, hexafluoropropylene, chlorotrifluoroethylene, pentafluoropropylene, vinyl fluoride, propylene, cthylene or combinations thereof.
- 4. (original) The compound according to claim 1, wherein said compound includes a blend of at least two copolymers.
- 5. (original) The compound according to claim 4, wherein at least two of said copolymers have a difference in fluorine content of at least 3 weight %.
- 6. (previously presented) The compound according to claim 1, wherein said copolymer further comprises ethylenically unsaturated monomers of the formula  $CF_2$ = $CFR_f$  where  $R_f$  is fluorine or perfluoroalkyl of 1 to 8 carbon atoms.
